The graded hammer keyboard reproduces the authentic touch and feel of an actual grand piano. "Ivory feel" keyboard for acoustic grand piano playing sensation. The Touch Sensitivity gives volume level change according to your touch strength.

The DREAM 2653 tone source is a sampling system which creates the realism of an acoustic instrument by using digital technology to record the instrument sound and applying high-quality digital filter technology to the recorded audio samples.

All our digital pianos feature 3 pedals (Soft, Sostenuto, Sustain).

Digital Piano For Beginner Model No. JL-200K/T

Grand-graded Digital Piano for professional performance | Model No. JL-350K/T

The DREAM 2653 tone source provides a pure piano sampling system which creates the realism of an acoustic instrument by using digital technology to record the instrument sound and applying high-quality digital filter technology to the recorded audio samples. The waveform of the sound created by playing the key of an acoustic piano differs depending on the playing strength from pianissimo to fortissimo. The DREAM Dynamic Stereo Sampling can produce such dynamic nuances by recording samples of various playing strengths. The greater the number of samples used, the higher the expression.

The generous 128-note polyphony ensures that notes won't be cut off, even when playing intricate classical pieces with long sustaining passages.

- 88 keys With Hammer Action
- French DREAM 2653 sound engine
- 128-note polyphony
- 3 pedals
- 2 headphone jack

Cost-effective Digital Piano For Daily Practice

Model No. JL-650T

- 88 keys Hammer Action
- Super simulation DRM source
- 64-note polyphony
- 140 richly tones
- Preset 128 rhythms
- 50 demo songs
- Automatic chord, Accompaniment synchro
- 3 pedals
- 2 headphone jack, Power jack, MIDI in/out, Aux in/out, USB
- MP3 player

The hammer action provides exceptionally natural, grand piano-like touch. The Touch Sensitivity gives volume level change according to your touch strength.

The product features 3 pedals, can emulate the soft pedaling, sostenuto pedaling and sustain pedaling effects of an acoustic piano.
